

# Cybersecurity Summit 2023

Day 1 - October 4

|         |   |                |                 |                 |   |  |
|---------|---|----------------|-----------------|-----------------|---|--|
| 9:00 AM | Welcome from the Commonwealth of Pennsylvania | Jason Hebbe    | Chris Dressler  | CoPA            | CoPA  | Executive Deputy Chief Information Officer, CGCIO™<br>Acting Chief Information Security Officer (CISO) |
| 9:30 AM | "All-of-State-Unifying Against Threats"       | Chris Dressler | Kristin Daniels | Deputy Director | Pennsylvania State Police and Department of Homeland Security | County Commissioners Association of PA   |
|         |   | Mike Sage      | John Wargo      | COIO            | Director of Technology  | Central Susquehanna Intermediate Unit 16   |

|          |  |                  |   |  |   |
|----------|--|------------------|---|--|---|
| 11:00 AM | Cybersecurity talent pathways in Pennsylvania: Unlocking a cloud-ready workforce                         | Mike Bryant      | Amazon Web Services                                     | Senior, Technical Business Development Manager, Amazon Web Services - Skills to Jobs | Exploring best practices to develop a cybersecurity talent pipeline and workforce                   |
|          | Modernizing the Cyber Workforce to Provide "All of State" Security                                       | Jennifer Raiford | Unisys  | Business Infrastructure and Security Officer (BISO)                                  | Examining the cyber workforce issues and looking at overall approaches to deliver critical services |
|          | Securing IoT Devices - Practical Strategies for Enhancing Cybersecurity of New and Emerging Technologies | Ian Fleming      | Deloitte & Touche LLP                                   | Business Solutions Architect   | Internet of Things Devices  |
|          | Cloud Migration and Security for State Agencies  | Delvin Huffman   | Deloitte & Touche LLP                                   | Senior Manager   | Cloud Solutions and Cloud Security  |
|          | Strengthening Your Cybersecurity Posture with Toc  | Megan Incerto    | MS-ISAC   | Regional Engagement Manager  | MS-ISAC no-cost and low cost cybersecurity resources and tools for SLTTs                            |
|          | Cybersecurity Services for Building Cyber Resilienc  | Derek Mueller    | Cybersecurity and Infrastructure Security Agency (CISA) | Cyber Security Advisor, PA State Coordinator   | CISA Resources and Services   |
|          | The State of Cybersecurity - What 2022 Tells us About 2023   | Jon Ford         | Mandiant, now part of Google Cloud                      | Senior Practice Leader, SLED Solutions   | SLG Threat Briefing   |

**Cyber Range Competition**

|         |  |                            |                              |  |   |
|---------|--|----------------------------|------------------------------|--|---|
| 1:00 PM | Guardians of the Digital Age: Why Cybersecurity Needs YOU                                  | Lisa Schlosser             | Harrisburg University        | Undergraduate Cybersecurity Program Lead                                 |   |
|         |  | Jessica Deborah Brandon AJ | Hoffman Blythe Keath Merlino | City of Philadelphia CrowdStrike HU Faculty Harrisburg U Career Services | Deputy CISO Executive Strategist Associate VP of Student Professional Development & Experiential Learning                                 |
|         | Emerging Threats and Adversary Trends  | Jason Atwell               | Google                       | Cyber Strategist   | Emerging Threats and Adversary Trends in the new world of AI  |
|         | Zero Trust- Best Practices for Public Sector   | John Jack                  | Boehmler Taibi               | Fortinet   | Zero Trust  |
|         | Demystifying Zero Trust: Lessons learned from implementing ZT across global organizations. | Vivek Turner               | KPMG, LLC                    | Director, Cyber Security Services  | This presentation will focus on the "what" and "how" for improving the ways vital information is gathered, analyzed and shared, at scale. |
|         | Current Cyber Security Threats   | Sean Stajkowski            | Pennsylvania State Police    | Intelligence Analyst   | Threats, Trends, and Case Studies   |
|         | Current Cyber Security Threats Boots on the Ground   | Maj. Christine             | Pierce                       | PA National Guard  |   |

**Vip Reception Commonwealth/ CCAP/ Harrisburg University/CISU 16**

Invitation Only (14th Floor Executive Suit Area)

Day 2- October 5

|         |  |  |                       |  |  |
|---------|--|--|-----------------------|--|--|
| 9:00 AM | Day 2 Weclome and Panel Discussion   | Christopher Dressler                       | Mike Sage             | Jessica Hoffman                        | Acting Chief Information Security Officer (CISO) State of Pennsylvania<br>COIO County Commissioners Association of Pennsylvania<br>Deputy CISO City of Philadelphia  |
|         | 10:30 AM   | Bug Bounties, Crowdsourcing Cyber Security | Jason Pubal           | Visa                                   | Senior Director- Application Security  |
|         | Addressing Staffing Challenges - A Four Part Plan                                      | John Cox                                   | World Wide Technology | Sr. Consulting Security Architect      | A multi-pronged approach to addressing talent shortages  |
|         | Exposing Adversarial Conersations: A Guide To Detecting & Restricting Lateral Movement | Adam Cheney                                | VMware                | Cybersecurity Specialist               | Operationalizing Lateral Security to Achieve Zero Trust in the Datacenter  |
|         | Securing New and Emerging Technologies So you have a critical vulnerability, now what? | Scott Francis                              | Accenture             | Security Innovation Principal Director | Securing New and Emerging Technologies   |
|         | Protecting against insider threats with zero trust strategy                            | Tamer Baker                                | Zscaler               | Field CTO - Public Sector              | This session will show a process to prioritize vulnerabilities and defend the prioritization decision relative to the environment rather than merely a cvss score remediation window.<br>Zero Trust for modern government security |
|         | Cyberattacks: Understanding and Identifying Cyber Jobs                                 | Beckhom                                    | Verizon               | Senior Manager                         | This topic will cover a discussion regarding the benefits of understanding cyber threats and threat  |
|         |  | Brian Gardner                              | Lumen                 |  |  |

**11:30 Cyber Range Winner Announcements and Lessons Learned.**

Event Concludes
